(E) Case based questions. (3 MARKS)

Read the given paragraph and answer the following questions.

Among the 28 states in India, Arunachal Pradesh is the most thinly populated state and least developed. The land of the rising sun had not seen the menace of waste in the early '90s, but due to improvement in the condition of living and rapid urbanisation, the waste generation has increased. The collection of solid waste and management was not organised due to the lack of awareness and absence of technically sound manpower to manage and plan solid waste management in the state.

- 1. What do understand by solid waste management?**
- 2. Who collects the solid waste in a city from homes, offices and various collection points?**
- 3. What would happen if the solid waste is not collected from our homes?**

(F) Fill in the blanks

- 1) There was a outbreak of Plaque in Surat in_____**
