PT-4 ASSIGNMENT (2024-25)

CLASS: VII

ENGLISH II

Date ___/___/___

Time: 1 Hour

M.M: 20 marks

Name:.....Roll No.....T. sign.....

Section A

Section A (Reading)

A. Read the following passage and answer the questions that follow:

5 marks

When you look at a running horse, you know immediately that it is alive; a beach pebble, by contrast, is nonliving. What distinguishes the two is life, or the state of being alive. Biology is the study of life and living things, and it can be divided into two main fields, Zoology and Botany. People who study Biology are known as biologists; the living organisms they study range from animals such as horses to micro-organisms such as green algae. All use energy obtained from food and released by respiration in order to fulfil their natural processes.

Biology covers a number of different studies. Ecology examines how living things interact and where they live. Physiology looks at how organisms work. Genetics is concerned with how characteristics inherited from one generation pass to the next. Other branches include Anatomy, Taxonomy, Microbiology and Parasitology.

There are around 2 million species of living organisms, and biologists classify them into groups. The largest and most general group is called a kingdom. There are five kingdoms: Monera (bacteria), Protista (protozoa and algae), Fungi, Plantae (plants) and Animalia (animals).

A. Tick (✓) the correct option:

1. Which one of the following options correctly states the kingdoms classified by biologists?

- (a) Biology, Zoology, Physiology, Ecology, Genetics
- (b) Genetics, Botany, Plantae, Anatomy, Taxonomy
- © Monera, Protista, Fungi, Plantae, Animalia
- (d) Botany, Zoology, Animalia, Parasitology, Microbiology

2. What distinguishes the two is life, or the state of being alive. Which one of the following words is an antonym of 'alive'?

- A) Life
- (b) dead
- © vital
- (d) Exist

3. _____ examines how living things interact and where they live.

- (a) Genetics
- (b) Microbiology
- © Botany
- (d) Ecology

II. Answer the given questions in brief.

1. What distinguishes a running horse from a beach pebble?
2. Name the two fields of Biology

B. Fill in the blanks with correct form of verbs given in brackets.

2.5 marks

- a) The students _____ (like) reading fables.
- b) Planets of the solar system _____ (revolve) round the sun.
- c) Mohan _____ (go) for yoga exercises everyday.
- d) Neha always _____ (complete) her projects on time.
- e) Frequent Bakes _____ (make) delicious cup cakes.

C. Fill in the blanks with the correct form of verbs given in brackets in the present continuous tense.

2.5 marks

- a) The ships _____ in the direction of the wind. (sail)
- b) The babies _____ in the cots. (sleep)
- c) The fans _____ properly. (work)
- d) The sparrows _____ in the garden. (chirp)
- e) The sheep _____ near the river. (graze)

D. Fill in the blanks with appropriate prepositions:

2.5 marks

- a) The cat is hiding _____ the table.
- b) She will arrive _____ 5 PM.
- c) The book is _____ the shelf.
