**Q 1. Read the passage and answer the questions that follow: (5 marks)**

Airplanes have a reputation for being dangerous and even inveterate travelers are intimidated by them. They also have the serious disadvantage of being the most expensive means of transportation, but nothing can match them for speed and comfort, traveling at an altitude of 30,000 feet, well above the clouds, and at more than 500 miles per hour is an admirable experience. You don't have to come up with ways to take your mind off the journey, as a plane whisks you quickly to your destination.

For a few hours, you settle into a deep armchair to enjoy the flight. The true escapist can watch a free movie and have a hot or cold drink at some services. But even when such snacks aren't available, there's plenty to keep you busy. An airplane offers you an unusual and impressive view of the world. You soar effortlessly over high mountains and deep valleys. You really see the shape of the earth.

If the landscape is hidden from view, you can enjoy the extraordinary sight of unbroken clouds, plains stretching for miles before you as the sun shines brightly in a clear sky. The ride is so smooth that there is nothing to stop you from reading or sleeping. Regardless of how you decide to spend your time, one thing is for sure: you will arrive at your destination fresh and wrinkle-free. You won't have to spend the next few days recovering from a long and arduous journey.
